One City Early Learning Centers is a full-time preschool in South Madison focused on preparing young children for future success. Our vision is to cultivate a community of healthy, happy, thoughtful and resourceful children who possess the capacity and commitment to empower others and change the world, their families and communities for the better.

We will achieve our mission and vision by taking a two-generation community impact approach to cultivating young children, and through exercising our core values every day: learning, community, competence and excellence.
